

Encompassing Computer Science Workshop 2015

Thursday, 21 May 2015

Session 4 (14:30 - 16:30)

-Conveners: Branko Kavšek

Session 4: Rok Požar - Computational aspects of lifting automorphisms (14:30 - 15:00)

Session 4: Marcin Anholzer - Generalized Stochastic Transportation Problems (15:00 - 15:30)

Session 4: Marko Grgurovič - Using trees to speed up the Floyd-Warshall algorithm (15:30 - 16:00)

Session 4: Pavel Fičur - Application of methods of matrix factorization in blind source separation (16:00 - 16:30)
