

# Positivity XI

**Monday, 10 July 2023**

**CA18232 Session: András Bátkai - Notes on oscillating semigroups (14:50 - 15:10)**

**CA18232 Session: Sahiba Arora - Irreducibility of eventually positive semigroups (16:15 - 16:35)**

**CA18232 Session: Julian Hölz - Eventual cone invariance revisited (16:45 - 17:05)**

# Tuesday, 11 July 2023

**CA18232 Session: Yassine el Gantouh - Positivity and well-posedness properties of a class of linear control systems (14:50 - 15:10)**

**CA18232 Session: Cristian Tacelli - Elliptic and parabolic operators with unbounded polynomial coefficients (15:45 - 16:05)**

**CA18232 Session: Ozgur Yildirim - On the weak solvability of second order difference scheme corresponding to system of sine-Gordon equations (16:15 - 16:35)**

**CA18232 Session: Aljoša Peperko - Some results on spectral theory for suprema preserving operators on max-cones in normed vector lattices (16:45 - 17:05)**
